Dear Jose,

This letter is to express our appreciation for your help with this project. We especially appreciate your efforts in rescheduling, and the manner in which you handed a difficult project.

The clad 316L/CrMo plates arrived at our shop as promised. This allowed Cust-O-Fab to fabricate the critical vessel as planned, maintaining our excellent position with this good customer.

Sincerely,

A handwritten signature in blue ink that reads 'Mike Leewright'. The signature is written in a cursive style.
